**ASCG celebrates Children's Day in Nigeria**

Active Solutions Consulting Group recently participated in celebrating Children's Day as part of their ongoing role in Nigeria working with Dana Air.

Justin Carter, one of ASCG's Training and Management Consultants joined staff at Dana Air on a special flight from Lagos to Enugu, where a group of school children enjoyed an exciting and special day out. The children were provided with gifts in-flight and a superb time was had by all.

Justin, picture in the centre, works within the Cabin Services Department supporting the ongoing and rapid development of Dana Air (Nigeria's newest airline) whilst the company has been providing a range of training, recruitment and management solutions since pre-launch.
